

THE EVENING BULLETIN.

VOLUME XII.

MAYSVILLE, KY., THURSDAY, NOVEMBER 24, 1892.

NUMBER 2.

TURNED AWAY.

Many of Those Who Applied for Their Old Positions

AT THE CARNEGIE STEEL MILLS.

The Families of Many Will Surely Suffer as They Are Already Short of Both Provisions and Fuel—Predicted That Some of the New Men Will Be Laid Off Saturday.

HOMESTEAD, Pa., Nov. 24.—The failure of a large number of the strikers to secure employment in the Carnegie mill has spread dismay in a manner already plainly noticeable. There were few applications Wednesday and these were turned away. The disheartened appearance of the men as they turned homeward through a blinding snowstorm made them objects of pity.

There are many families among the strikers, while suffering from a

Scarcity of Provisions.

have not even fuel in their houses, and much suffering is sure to result.

Next Saturday is the regular bi-monthly pay day at the mill, and it is predicted that there will be a large number of the new men

Laid Off for Causes.

or leaving of their own accord through the return of the strikers, which might make it uncomfortable for them to remain.

The force of the deputies was again reduced Wednesday morning by six men, leaving the force now in charge of twelve men, including Chiefs Young and Ritchie. It is said that their duties will end by Saturday, when they will be withdrawn.

Wages Reduced.

BEAVER FALLS, Pa., Nov. 24.—Many of those who have regained their old positions at the Carnegie mills here are feeling much depressed over the notification given that their wages would be reduced. The boiler men, who formerly received \$2.25 per day, must now work for \$1.89. The wages of the others are cut in proportion. The assistant boss roller on one of the turns refused to go to work Tuesday. His wages before the strike were \$9 per day, but Tuesday he was notified that they would be reduced to \$4. The reduction has created considerable excitement.

WHEELS WHIZZING

And All is Activity at the Carnegie Mills at Homestead.

HOMESTEAD, Pa., Nov. 24.—The advisory board having been dissolved the last official gathering to discuss strike matters is at an end.

Ex-President Weihe, of the Amalgamated association, is quoted as stating in connection with the Homestead strike: "No other strike was so broad in its influence, and men were never so prosecuted in any other strike. On an estimate of \$1.40 per day for laborers and \$3 for skilled workmen, the 7,300 strikers in Homestead, Lawrenceville and Beaver Falls lost \$23,000 daily, or \$2,000,000 during the entire strike."

The strikers still continue to keep up the rush for their old positions at the steel works, and although many are turned away others are more fortunate and are told to report for work next Monday. The new men are leaving the works in groups of five or six. Some few are discharged, but the greater number are leaving of their own accord. Every train leaving Muncie carries away more than a dozen of the new men who have become dissatisfied and will seek employment elsewhere.

In the future the Carnegie company will treat with its employees as individuals. Each man employed is required to sign an agreement in which he pledges himself to refrain from belonging to any labor organization, and to be governed entirely by the rules and regulations of the company. Each department superintendent is provided with these blanks, and no one can be employed unless he signs the agreement.

KNIGHTS OF LABOR.

The St. Louis Convention Finish Their Work and Adjourn sine die.

St. Louis, Nov. 24.—Wednesday's Knights of Labor session was very interesting and a number of important resolutions were adopted. Among them was a resolution favoring the restriction of immigration to those who held funds insufficient to support themselves one year and restricting the ballot to those who could read and write.

The convention refused to adopt a resolution favoring the abolition of the national guard.

A boycott on Armstrong & Company, of Pittsburgh, cork manufacturers, was readopted.

The proposition to abolish tax on state bank issues was condemned and the convention reaffirmed its stand that money should be issued by national government only.

The general assembly placed itself on record as being opposed to closing world's fairs on Sunday and left the sale of liquor on the grounds to the state.

The general executive board was authorized to take steps to establish a Homestead Building and Loan association and establish an insurance association to provide members funds to carry on suits under the employee's liability acts. After expressing thanks to the press associations and local press for favors the convention of 12:30 adjourned sine die.

The general executive board at a meeting late Wednesday afternoon decided to adjourn to meet at the headquarters of the order in Philadelphia, and there take up the work assigned to

the board by the general assembly. Thus the formulation of an appeal for aid for the sufferers by the Homestead strike and other important matters will not be acted upon until then.

WAR AT LIMA, O.

Between Officers and Highwaymen—No-boddy Hurt.

LIMA, Nov. 24.—The police at an early hour Wednesday morning had a battle with a gang of highwaymen, who terrorized South Lima. The battle took place about a mile east of town along the Chicago and Erie railroad. The desperadoes stationed themselves near the crossing over Reece avenue. They were well armed and halted every one who came along.

Frank Herrod was on his way up town when they sprang upon him and overpowered him. They took his overcoat from his back, rifled his pockets of about \$50 in cash and took his watch and a diamond pin.

G. B. Anspach was stopped with two revolvers shoved into his face. He carried a lantern, and drove them off and started to run, when they fired several shots after him, but he succeeded in eluding them.

James Romer, an old man about seventy-five years of age, came along soon afterward. They sprang out and bore him to the ground. The feeble man tried to defend himself, and was all but choked to death, and is in a critical condition from the effects of the shock. They took everything he had and then started east.

The police had by this time appeared on the scene and four officers started in pursuit on board of a switch engine. About a mile and a half east of town they came across them in the act of burglarizing a farm house.

The police surrounded the place, when the burglars opened fire on them. The police returned the fire and emptied their revolvers at the fellows, who escaped in the darkness in the woods. The officers returned to the city for a supply of ammunition and returned at once and joined in the chase. The desperadoes were heavily armed and are a bad set, and there will be bloodshed if they come together.

ON A QUIET ISLAND.

Mr. Cleveland Will Take a Rest for a Couple of Weeks.

PHILADELPHIA, Nov. 24.—While President-elect Cleveland's postoffice address at present is Exmore, Va., a small station on the Cape Charles peninsula, reached by the Philadelphia and Norfolk railroad, his real destination is believed to be Broadwater Island.

This island, known upon the coast survey and locally as Hog island, lies twenty miles north of St. Charles, between Great Machipongo inlet on the south and Little Machipongo on the north. Broadwater island is maintained as a private hunting preserve by a club of fifty leading persons. It is reached by a private steam yacht belonging to the Broadwater club, running down Pocomoke creek from Exmore landing, which is two miles distant from the little village of the same name.

The island is eight miles long with a magnificent beach, on which the government has established a light house and life saving station. In the recesses of a pine forest, which covers part of the island, a club house and several cottages have been erected. Game is abundant and the president-elect will have ample opportunity to indulge his fondness for sport.

Mr. Cleveland expects to be absent from New York about two weeks.

DEATH IN A QUARRY.

Two Swedes Killed by an Explosion of Dynamite.

BRANFORD, Conn., Nov. 24.—A horrible accident resulting in the death of two men, occurred at Beattie's quarry, Leetes Island, Wednesday. Two Swedes, William Johnson and Augustus Littleton, were at work in the quarry preparing a blast. They had drilled two holes and filled them with dynamite. They then stood at a safe distance and ignited them by electricity.

Only one blast went off, but the men supposed both had exploded and went back and began to drill another hole. They had been at work but a short time when there was a terrific explosion and both men were hurled to the ground with great force. Johnson was dead when his fellow-workmen reached his side and Littleton was unconscious and died soon afterwards. The accident was due to the carelessness of the men.

Stamboul Makes a Mile in 2:07 1-2.

STOCKTON, Cal., Nov. 24.—Stamboul trotted on a kite-shaped track Wednesday in 2:07 1-2. The day was not favorable, it being cloudy and cold and the track was damp from Tuesday night's rain. The stallion was in good condition, and had it been a better day, his time would have been lower. He went to the half in 1:02 1-2, and finished in 2:07 1-2, going without a skip until he reached the wire, when he left his feet. The performance makes Stamboul king of the trotting turf.

Missing Vessel Heard From.

CLEVELAND, Nov. 24.—A special to The Press from Sanit Ste. Marie says Captain Fleming, of the schooner Glenora, has just reached there in a small boat. The Glenora was given up for lost several days ago, nothing having been heard from her for a week. Captain Fleming said the vessel's steering gear was broken and she drifted for several days helpless in the great storm that has been raging on Lake Superior. Finally the schooner brought up at Mamainze harbor Saturday and is there safe at anchor. The crew suffered greatly but none were lost.

Lake Steamer a Total Loss.

BUFFALO, Nov. 24.—The steamer Newburgh, which went ashore above Long Point last Saturday, went to pieces Tuesday and will be a total loss.

PINKERTONISM.

Uncle Sam's Committee in Pittsburg Examining It.

SENATORIAL INVESTIGATION.

Frick, Potter and Others Summoned to Testify—The Former Witness Occupies Nearly the Entire First Day's Session of the Committee.

PITTSBURG, Nov. 24.—The United States senate subcommittee, consisting of Senator W. A. Peffer, of Kansas; R. E. Gallinger, of New Hampshire; his son, who is clerk of the committee; N. D. Duntont, of Washington, sergeant-at-arms, and F. J. Haig, stenographer, arrived in this city from Chicago Wednesday morning, and are quartered at the Hotel Duquesne, where their investigation of the Pinkerton agency question will be resumed.

The committee went into session at 2 o'clock in the afternoon. The first witness was William Martin, late secretary of the Amalgamated association, who gave his present occupation as "chief of the labor bureau of the Carnegie Steel company," his duty being to keep informed of the wages paid in other mills and to aid the different superintendents in settling labor troubles. When asked why he had left the Amalgamated association he said that it was a delicate question but admitted that it was largely a question of compensation, as he had no trouble with the association. He had no connection with the Homestead strike, as his duties ceased there on June 25. As the methods of dealing with strikes he thought the Amalgamated association's about as good as any, as they had only about two big strikes, those of 1882 and the one just ended. He believed in conciliation, but is utterly opposed to compulsory arbitration as impracticable. The employment of armed forces ought to be the last resort.

H. C. Frick was on the stand for over two hours, but much of his testimony was necessarily identical with that given before the house committee. He said the company employed foreigners from necessity but he preferred Americans when they could be had. He said the firm employed over 20,000 men in the different branches and about 35 per cent. were native Americans.

"We base the maximum and minimum of wages upon the selling price of our products and pay every two weeks. We employ watchmen during a suspension of work, from our idle employees when possible. Our experience with sheriffs in Fayette, West Moreland and Allegheny counties is that they can not furnish protection. We have not employed armed men from this or any other state."

Mr. Frick then submitted a copy of his letter to Robert A. Pinkerton, of New York, in which, he said, 300 guards would be needed to protect their property and workmen, but stating that it was not desired that they be armed. The letter explained the plan for assembling the guards at Ashtabula, O., to be brought by rail to McKee's Rocks, and there transferred to boats.

Mr. Frick then continued as follows: "Our experience was that we could not expect protection from the local authorities. We did not employ armed men. The guards would not have been brought had we foreseen such a conflict. We took every precaution to prevent trouble, and this is why we conveyed the men to the works on boats, so they could be landed on our own property."

"We have reduced wages occasionally and advanced them frequently. They are higher now, and the hours are shorter than in 1890. We went to the Pinkerton agency because it was the only means of getting men on short notice."

"We have not been in the habit of employing private detectives, disguised as workmen, but have done so as a means of protection. The whole trouble arises from a lack of the enforcement of the laws. The officer should see that a man has a right to work and an employer's property protected. I do not think compulsory arbitration would work well. The wages range from \$1.40 to \$12, the average being about \$3. The cost to the men in this strike in wages was about \$1,000,000. As to the loss to the company I could not answer."

Mr. Frick's testimony closed with the statement that there was no provision made for paying the sheriff's deputies and the company had to advance the funds for this purpose.

The investigation will be continued.

KIDNAPED CHILD RECOVERED.

Little Bertie Kearney Found After a Seven Years' Absence.

NEW YORK, Nov. 24.—Bertie Kearney, who was kidnaped in Montreal, seven years ago, was found by his cousin, Alex Kearney, an actor in the Soudan company, in this city last Sunday night. The discovery was made accidentally. Actor Kearney appeared at the Grand opera house Sunday night and, after he left, he purchased a paper from a boy who was sitting on the steps of the elevated railroad at Sixth avenue and Twenty-third street. The boy—Bertie is now twelve years old—was "stuck" on a bundle of newspapers and was crying bitterly. The actor asked him a few questions as to his name and other facts, as he had become accustomed to question every little waif he met in his travels, in the hope of some day running across the youngster.

The lad said his name was Bertie and told some other things about himself that led the actor to believe that he had at length found his long lost cousin. He took the boy to his hotel and there he became convinced that he was right by finding certain birthmarks. The boy says he was brought up by an Italian organ-grinder, who used him so cruelly that he ran away about a year ago. Since then he has lived on what he

could earn by selling papers. It is probable that the Italian, whose whereabouts are now unknown, was the kidnapper. Bertie's parents are dead, but he will find a happy home with his cousin's parents in Montreal.

ADVISING ANNEXATION.

Two More Canadians Boldly Speak Their Sentiments.

MONTREAL, Nov. 24.—The increasing interest in politics in the United States is shown by the prominent place it is assuming in public discussion.

La Patrie, an influential Liberal journal, comes out boldly in advocacy of annexation. It answers the numerous objections that are raised to the proposals and concludes: "Those who condemn political union and desire to perpetuate the power of England on the American continent are always more or less interested. Some are seeking government patronage, others are afraid of making enemies among the powerful if they espouse the popular cause. But the current is too strong to resist much longer. Sophistry and sentimental appeals will not always triumph over reason and the material interest of the country."

The Echo De Denx Montagnes, which was recently lashed by the Catholic authorities for attacking the clergy, has also joined the ranks of the political Unionists and declares that annexation would be a Godsend to the province of Quebec. The question is also becoming a live question for debate in political clubs. The club Letellier, composed of Liberals, and the Conservative club will discuss it at their next meeting on the 28th of this month. A monster meeting is soon to be held in Sohier park. A discussion will take place on the question whether annexation, independence or imperial federation would be best for Canada.

Elgin Myers, queen's counsel, of Toronto, who was dismissed from office by the Mowat government on account of his annexation views, will advocate political union. At the conclusion of the discussion a vote will be taken.

AN EXODUS TO AFRICA.

Georgia Blacks Advised to Go Where They Can Rule.

ATLANTA, Nov. 24.—A peculiar African craze has been started among the negroes of Atlanta. This time there is no agent going about among them picking up dollars by pictures deftly painted of a laud overflying with milk and honey, but well known responsible negro preachers are advising their people from the pulpits to emigrate to Africa.

The cause of this new and more serious African craze among the negroes is due to a combination of circumstances. First, an alleged discrimination against negroes on the railroads in Georgia stirred up a feeling among the colored race. Then an order issued by the Consolidated Street Car company, assigning seats to colored people added fuel to the fire.

It is certain that the doctrine of emigration is being preached from many of the negro pulpits in the city.

In Bethel church on Wheat street last Sunday night the negroes were advised by the preacher to "leave this Georgia and go to their own country, Africa, where they would have equal rights and held govern."

Among other prospects this pulpit orator held out to his sable congregation was "street cars of their own."

Other negro preachers are holding out emigration to Africa as the only future salvation (in a worldly sense) of the American negro race. These sermons are having marked effect on those who hear them and it may be that a bonafide emigration to Africa will set in. One of the negro preachers has signified a willingness to lead the way.

BERLIN-SAMOAN TREATY.

It Will Soon Be Ratified in Washington, London and Berlin.

WASHINGTON, Nov. 24.—The negotiations to modify the Berlin-Samoan treaty which have been in progress for some time at Washington, London and Berlin are drawing to a close and within a short time the result will be ready for ratification by the powers. The proposed changes are not radical, it is said, and important only as they are expected to lead to a more harmonious and satisfactory condition of things in Samoa.

It would not be surprising if they included the recognition of Mataafe as king instead of Malietoa. Mataafe has been in a state of passive rebellion against the constituted authority for some months, and now claims to have been elected king by three of the principalities of the country, which under the former practice of the country would make him the reigning potentate.

The United States has always been ready to recognize Mataafe but the Germans installed Malietoa because of the former's vigorous assault upon the German forces in which a number were killed.

The United States ship Alliance is now en route from Honolulu to Apia to protect American interests in Samoa in case of a rather improbable outbreak of any kind. The Alliance is an old boat that recently returned to this country from China to go out of commission. She will be replaced in a month or six weeks by the Ranger, which is now undergoing repairs, after a season in Behring sea, at the Mare Island navy yard.

Lake Steamer Aground.

CLEVELAND, Nov. 24.—The big steamer Matao is aground just outside of Ashtabula harbor and is in great danger. The sea is very high and the spray dashes as high as her masts, covering the boat with ice. No tug can get near her. The crew are on board with steam up. It is feared that she will break in two. The Matao belongs to the Minnesota Mining company line and is valued at \$200,000. She has a cargo of iron ore.

LOSSES BY FIRE.

A Destructive Blaze on Staten Island.

TWO FACTORIES DESTROYED.

Four Hundred People Thrown Out of Employment by the Fire—A Wisconsin Lumber Camp Destroyed and Several People 'Fatally' Burned—Other Fire Losses.

NEW BRIGHTON, S. I., Nov. 24.—The extensive buildings of the Anderson Pressed Brick company, of New York city, and Kreischer Brothers, tile manufacturers, at Kreischerville, S. I., were entirely destroyed by fire Wednesday afternoon, together with the machinery, and a quantity of finished bricks and tiles were damaged.

The fire broke out at 3:45 o'clock and was caused by the explosion of an oil pipe in a tunnel under a brick kiln in the Anderson factory. The blazing oil, fanned by a high wind, spread the flames so rapidly that the operatives were powerless to extinguish them, and were only able to save a long row of dwellings with the aid of the fire companies from Tottenville, two miles away. The loss of the Anderson company is \$75,000, and the Kreischer Brothers \$125,000; both fully insured. The village is inhabited only by operatives in the two factories, and over 400 are thrown out of employment.

LUMBER CAMP BURNED.

One Man Dead, Another Fatally Injured and Three Others Hurt.

MILWAUKEE, Nov. 24.—A special from Marshfield, Wis., gives particulars of a fire at Staudt's lumber camp and the burning of five of the eight men who occupied the building. One is now dead. Charles David, of McMillan, can not recover, and two others are burned so badly that the flesh has dropped from their hands and faces.

The building, which was a two-story structure, caught fire from a stove and communicated to the stairway, cutting off egress from above. The men awoke in the midst of a suffocating smoke and jumped from the windows to the frozen ground beneath. The camp was situated four miles below Stratford. The name of the man who perished in the flames was Anton Mullbach. The financial loss is estimated at \$10,000.

Furniture Factory Fire.

NEW YORK, Nov. 24.—The six-story building, extending from 148 to 154 West Twenty-third street, and occupied by Otis Corbett, furniture dealer, was destroyed by fire shortly before midnight Wednesday night. The fire was caused by an explosion in the cellar, the flames spreading with great rapidity. Two hours after the fire broke out the flames were practically under control, and all danger to adjoining buildings and buildings in the vicinity was avoided. The burned buildings were filled with valuable furniture, which is estimated to have been worth \$150,000. The building itself was damaged to the extent of \$35,000.

Three-Fifths Insured.

CHICAGO, Nov. 24.—The warehouse of the Bridgeport Wood Finishing company, Randolph street, near Fifth avenue, was partly burned Wednesday. The loss to the finishing company is \$20,000, on building \$5,000; Chicago Art Glass company \$10,000, and the Chicago Blue Print company \$3,000. The architectural brass works of L. S. Baldwin was also damaged to the extent of \$3,000. All losses are insured about three-fifths.

Five-Story Building Guttled.

NEW YORK, Nov. 24.—The five-story building, 11 and 13 East Fourth street, occupied by M. Samper Sons & Company, manufacturers of boys' clothing, was gutted by fire at midnight Tuesday night. Loss on building and stock \$75,000; fully insured.

WITH BARE KNUCKLES.

Two Laborers Fight Thirty-Three Rounds to a Draw.

BRADDOCK, Pa., Nov. 24.—George Dodds and Thomas Carney, both employed in the Westinghouse works at Swissvale, each about thirty years of age and weighing about 155 pounds, fought a desperate bare-knuckle prize fight of thirty-three rounds in an open field just east of the village of Swissvale, Tuesday night. About 400 people witnessed the battle, in which both men were terrible punished. Neither could respond when time was called at the end of the thirty-third round and the fight was declared a draw.

The office is of the Westinghouse company heard of the affair, and Wednesday both men were discharged. Afterwards both men were arrested, also twenty-eight of the spectators. All were held under bail for a further hearing. The names of forty other spectators have been secured and they will be arrested. The pursu fought for was two weeks' wages of the defeated man.

Vessels Held in Quarantine.

NEW YORK, Nov. 24.—A special to The Herald from Washington says the protest of the passengers of the steamer Weimar, now detained in quarantine, has had little effect upon Secretary of the Treasury Foster. He says the regulations must be enforced strictly even if hardships are caused in some cases, and believe we ought to be as careful and take as many precautions against cholera all during this winter as at any in the past. The way to reduce the danger from cholera or any other epidemic ranging in Europe, Mr. Foster added, was to enact legislation to restrict immigration. He hoped congress would take immediate action in this line.

EVENING BULLETIN. DAILY, EXCEPT SUNDAY. **ROSSER & MCCARTHY,** Proprietors. TO MAIL SUBSCRIBERS: One Year.....\$3 00 Three Months..... 75 Six Months..... 1 50 One Month..... 25 DELIVERED BY CARRIER: Per Week.....6 cents **THURSDAY, NOVEMBER 24, 1892.** **OUR TWELFTH YEAR.** The EVENING BULLETIN entered upon its twelfth year yesterday. The people of Maysville and surrounding country are familiar with its career, and know how it has grown and prospered in the eleven years of its existence. It is not our habit to do much "blowing," but we believe we are giving our readers a better and newsier paper than ever before. We try to do so, at least. We have no cause whatever to complain about the patronage we have received. It has been very generous, very liberal indeed, and we are in better condition in every way now than at any time in our past. For all which we are truly thankful. "Offer unto God thanksgiving; and pay thy vows unto the most High." "O give thanks unto the Lord; for He is good; for His mercy endureth forever." "Let them sacrifice the sacrifice of thanksgiving, and declare His works with rejoicing." "Let us come before His presence with thanksgiving, and make a joyful noise unto Him with psalms." THAT "statesman out of a job," ex-Senator Ingalls, will have plenty of company after the fourth of next March. ONE Republican editor has been found who doesn't believe the country is going to the devil because the Democrats won. He is the Greenup Gazette man. FORTY-ONE murderers have been jailed at Louisville since the first of last January. This is an awful record. Four of them are now under sentence of death. The "calamity prophets" seem to have forgotten that Mr. Cleveland was President from 1884 to 1888, and that the country got along unusually well under his administration. WHERE was Major D. J. Burchett when his county gave a Democratic majority of 400—Greenup Gazette? Don't know. But where was Harrison when his State gave Cleveland nearly 10,000 majority? REPUBLICANS are predicting there will be "weeping and wailing and gnashing of teeth" after the 4th of March. Right for once. Just look at the long list of Republicans who will have to step down and out. THE Gazette says there was not a word of truth in the sensational articles telegraphed from Greenup to the Cincinnati papers last Tuesday. The people up there should ferret out the fellow who is doing all this lying and give his papers a genuine item of news. THE manner of voting under the new secret ballot system is a very simple one and the people will soon familiarize themselves with it. The Legislature should not commence tinkering with it. Any changes now would simply tend to get the whole thing in a tangle. Let well enough alone. "THE Enquirer comes out against the re-appointment by Mr. Cleveland of the men who served during his previous administration," observes the Covington Commonwealth. What the Enquirer says on the subject will influence Mr. Cleveland about as much as a drop of water does the ocean. IN the Boston Pilot of December 1, 1888, John Boyle O'Reilly wrote: "During every day of the next four years Grover Cleveland will grow in the admiration, confidence and affection of the American people. Depend on it, he will be President of the United States again, placed there by a tidal wave of popularity." Mr. O'Reilly gets away with any political prophet yet mentioned. **The Ladies.** The pleasant effect and perfect safety with which ladies use themay California liquid laxative Syrup of Figs, under all conditions, make it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package. THE Maysville Assembly will entertain at Neptune Hall to-night.

Miss Sallie Wood is spending Thanksgiving in Cincinnati.

Mr. and Mrs. John Duley have been visiting in Fleming this week.

Mrs. H. L. Newell and Miss Ella Newell spent Wednesday in Cincinnati.

Mr. Thomas Gilmore, Hinton, W. Va., is visiting his brother, Mr. M. R. Gilmore.

Mr. and Mrs. George Welsh, of Danville, are guests of Mr. and Mrs. W. D. Cochran.

Miss Alice T. Gill is at home after a visit to Miss Mary Keith Green, of Danville.

Mr. James Martin, of Winchester, arrived last evening on a visit to his mother, Mrs. Mary Martin, of Forest avenue.

Mr. and Mrs. Frank Armstrong, of "Edgewood," went to Millersburg yesterday afternoon to spend Thanksgiving with her parents.

Mr. L. Bowden, of Flemingsburg, was in town yesterday, and was accompanied home by his daughters, who are pupils at the Visitation Academy.

Miss Emma Lucas, a pupil at Hamilton College, Lexington, came home last evening to spend Thanksgiving with her parents, Rev. and Mrs. C. S. Lucas.

Miss Bessie Owens, who is attending school at Mt. Auburn, Cincinnati, came home last evening to spend Thanksgiving with her parents, Colonel and Mrs. Frank S. Owens.

Another Old Land-Mark Removed.
 Mention was made early this week that workmen were engaged in tearing down the "Old Daulton Homestead," in the West End. This is said to be the oldest residence in the city, having been erected, as near as can be ascertained, about the year 1792.

The original structure was a double log cabin—in which were born the entire family of Moses and Mary Daulton, parents of the late Thomas Daulton, of this city. The house was repaired and modernized in 1848 by William Bridges.

Its ancient walls have echoed with the voices of four successive generations, and its removal, no doubt, will recall some interesting recollections to the minds of some of our older citizens.

Advertised Letters.

The following is a list of letters remaining in the postoffice at Maysville, Mason County, Ky., for the week ending Tuesday, November 22, 1892:

Alexander, Mary Agnes
 Alspaugh, Jacob
 Alexander, Wesley
 Armstrong, Mrs. Lizzie
 Bush, Charles
 Boulden, J. E.
 Boggess, John
 Brerley, George
 Chinneway, John
 Cleland, F. A.
 Cook, Mrs. Kate
 George, M. A.
 Gowens, Mrs. George
 Hamilton, Charles W.
 Jackson, Andrew
 Jackson, Kate
 Lewis, E. S.

Persons calling for any of the above will please say advertised. One cent due on each for advertising.

THOS. A. DAVIS, P. M.

Lecture.

The lecture to-night at St. Patrick's Church should have a large attendance as Rev. Father Calmer is undoubtedly one of the most eloquent orators and able men in the country to-day. Subject: "Christopher Columbus." Doors open at 7:30. Lecture promptly at 8 o'clock.

Real Estate Transfers.

Jno. A. Reed and wife to O. H. P. Thomas, house and lot on south side of West Third street; consideration, \$4,500.

F. M. Downing and wife to John A. Gallagher, a lot in Germantown; consideration, \$200.

The members of the M. E. Church surprised their pastor, Rev. D. P. Holt, at his home last evening, and left a generous donation of good things for his Thanksgiving dinner.

You will miss a treat if you fail to hear Father Calmer's lecture at St. Patrick's Church, Limestone street, to-night.

Mr. NAT POYNTE, an ex-Maysvillian, won an orange grove valued at \$5,000 on Cleveland's election.

PRAYER meeting as usual at the M. E. Church to-night.

The First Step.

Perhaps you are run down, can't eat, can't sleep, can't think, can't do anything to your satisfaction; you wonder what ails you. You should heed the warning, you are taking the first step into nervous prostration. You need a nerve tonic and in Electric Bitters you will find the exact remedy for restoring your nervous system to its normal, healthy condition. Surprising results follow the use of this great nerve tonic and alterative. Your appetite returns, good digestion is restored, and the liver and kidneys resume healthy action. Try a bottle. Price 50 cents at J. James Wood's drug store.

TRY the WEEKLY BULLETIN a year and you will not do without it.—Only \$1.50 now.

HON. E. M. DICKERSON, of Paris, is a candidate for United States District Attorney for Kentucky.

Miss Mary Niland arrived home last night from Cincinnati, where she has been for several months past.

Thirty thousand dressed turkeys were shipped one day recently from Paris and Richmond to New York and Boston.

When Baby was sick, we gave her Castoria.
 When she was a Child, she cried for Castoria.
 When she became Miss, she clung to Castoria.
 When she had Children, she gave them Castoria.

ANNOUNCEMENTS.

FOR MAYOR.

WE are authorized to announce HARRY HAULMAN as a candidate for Mayor at the approaching city election.

WE are authorized to announce A. E. PEARCE, JR., as a candidate for Mayor at the ensuing city election.

FOR MARSHAL.

WE are authorized to announce W. B. DAWSON as a candidate for Marshal at the ensuing city election.

WE are authorized to announce E. W. FITZGERALD as a candidate for Marshal at the ensuing city election.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood,
 Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KINCHLOE,
 Conway, Ark.

The Centaur Company, 77 Murray Street, New York City.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

THAT COMET.

Wise Astronomers in Doubt Concerning the Celestial Tramp.

Some Think It's Approaching, While Others Think it is Receding.

People have become greatly interested of late over the new comet. Few have been able to locate it yet, but they take it for granted that it's up there somewhere, because the astronomers say so. The astronomers, however, seem to be a little mixed up on the subject, and are "unable to make head or tail of the celestial tramp." The New York World says they are now disputing among themselves whether it is going away or coming towards the earth at a rapid rate. Biela, continues the World, has produced another sensation, and once again a lot of beautifully curved and harmonious theories are shaken to their foundations. Never before was comet seen which acted as this one is doing, and the original controversy as to whether or not it is Biela's has been side-tracked by the greater question of where it came from and where it is going. Well was it said of this comet by Prof. Harold Jacoby, of Columbia College: "It gives me a pain in the neck." He was speaking, however, of its position in the heavens, which is directly overhead, and long observation of it is not unattended by physical discomfort. Similarly the street urchin epitomized the situation when he said, after a look at the sky: "It's out of sight, see?"

The news from the observatories, however, reflects the diversity of opinion prevailing in the astronomical world. Prof. Lewis Swift, of the Warner Observatory, says: "It is plainly coming nearer and growing larger." He is also convinced that it is Biela's comet, and he treats it as such in all his discussions of the subject. When asked in regard to the monster's tail, Prof. Swift said: "There is no tail to be seen, but it never had a tail to amount to anything." Evidently the head of the Warner Observatory remains firm in his belief that it is Biela's comet and no other that is now so greatly agitating the astronomical world. Even if it does not strike the earth on Sunday night he says that a shower of meteors is then to be looked for, and Prof. Swift says it will be a beautiful display.

Prof. Pickering, of Harvard College, is cautious and refuses to say whether the comet is going or coming, and whether or not it is Biela's, although he has been observing it steadily for two weeks, as have most of the other astronomers. Prof. Lewis Boss, of Dudley Observatory, Albany, who was one of the first to incline to the belief that this was Biela's comet and that it would be very close to the earth on Sunday night next, has now some doubts upon the subject. He thinks now that the comet is going rather than coming, but reports some curious facts utterly inconsistent with that theory. There is no doubt, says Prof. Boss, that the comet is steadily increasing in size, which would be a queer thing for it to do if it was leaving the earth at the rate of millions of miles a day.

As to this constant increase in the size of the comet from night to night practically all the astronomers are agreed, and they find some difficulty in making it harmonize with a recedence. Prof. Boss says that all the calculations unite in the verdict that the comet is slowly receding. "This being the case," he says, "it should have been brighter previous to discovery than it has been since. When discovered the comet was barely visible to the naked eye."

"Another singular point," says Prof. Boss, "is that although the comet is receding from the earth and should appear smaller with the increased distance, the later estimates of the apparent diameter of this comet make it nearly twice as great as the earlier estimates do." From the statements of other eminent observers it will be noticed that the steady increase in the size of the comet has excited their wonder. There appears to be no question that its earlier brightness is dimmed, but many people are curious to know how it could be twice its original size, and still growing rapidly, if at the same time it was getting further and further away. According to this theory it would be absolutely invisible when it reached the earth and would appear larger than a whale when at some remote corner of the heavens.

It may be remarked as a humorous incident in the controversy that Holmes, who discovered the comet, stoutly protests that it is not Biela's, well knowing that in that event he will immortalize himself by attaching his name to it, and he has already applied for the comet-Anderson prize.

Another sensational development of the comet controversy is the discovery of six more comets by Prof. J. B. Coit, of the Boston University. None of these,

however, is likely to come to the earth in the near future. Prof. Coit says, however, of the comet now agitating astronomical circles: "It is impossible to determine definitely as yet whether it is Biela's or not. A marked feature of this comet is that its motion, since discovery has been almost directly in the line of sight." This illustrates the difficulty of telling the direction it is going. It is either going straight away from the earth or coming directly towards it. Prof. W. S. Woods, of Washington, is sure it is Biela's comet, but says if it hits the earth "it will be the touch of the rose or the zephyr."

Prof. Stone, of Princeton, says: "Its substance is extremely rare. Our air is several times more dense, and if it does strike the earth it will do no more harm to the inhabitants than a feather bed would to fish if it should fall on the ocean. The principal harm that could come would be the falling of meteoric stones over the surface of the earth, and a slight disturbance in our atmosphere, caused by the gasses mixing with our air. Its diameter is about 25,000 miles; so the falling of as many meteoric stones as it seems to contain over such a surface would spread them so thinly that not very many would strike the earth, and these would do little damage. If it strikes the earth next Saturday or Sunday night, about all we will see will be a nice display of meteoric fireworks."

Congressman Paynter has gone to Kansas on business.

The C. and O. will soon give an order for 1,000 new box cars.

Opening day Saturday, November 26th, at J. T. Kackley & Co.'s.

Mr. James N. Kehoe left last evening for Detroit on legal business.

Elder P. H. McGuffey, of Nicholasville, is assisting in a protracted meeting at Dover.

Judge Cole has appointed S. A. Ratliff, of Carlisle, assignee of Charles Ball, of Blue Licks.

Marriage license was granted yesterday to James A. Foster and Sallie A. Brinley, a colored couple.

The revival conducted by Elder George Darsie at Carlisle had resulted in thirteen additions at last accounts.

The Democratic gain this year in Boyd County over the vote of 1888 was 268, and in Lawrence County 374.

Gilman, Current & Co. of Paris, finished shipping Tuesday 18,000 turkeys to Boston for the Thanksgiving market.

A newsboy on the L. and N. railroad sold 1,000 copies of the Cincinnati Enquirer the day after the late election.

Colonel John F. Moran, of Carlisle, will be an applicant for the position of Assistant District Attorney for Kentucky.

Are you taking the Weekly Bulletin? If not, subscribe at once and get the best paper in this section. Only \$1.50 a year.

There has been a big boom in the matrimonial business this week. County Clerk Pearce issued six marriage licenses yesterday.

"A Turkish Bath" at the opera house next Saturday night. The company goes from here to Cincinnati for a week's engagement.

Hopper & Co. have everything new and in novel jewelry, and prices guaranteed to be the lowest. See their goods before purchasing.

Are you looking for something elegant as a wedding gift for a friend or relative? If so you can always find it at Ballenger's jewelry store. You should not fail to call on him. His goods are warranted the best made.

The newest goods, the lowest prices at P. J. Murphy's, the jeweler. Special low prices on ladies' and gent's gold watches; also diamond ear drops, lace pins, rings, bracelets and neck chains. Successor to Hopper & Murphy.

Two horses valued at half a million dollars are in one stable at Louisville this week. Among them are Direct, king of pacers; Flying Jib, another fast pacer; Little Albert, 2:10; San Pedro, trotting record 2:11; pacing 2:21; Direction, king of three-year-olds, record 2:11; Vic H, trotting record 2:13; Steve Whipple, trotting record 2:14; Homestake, trotting record 2:14.

DID YOU SEE THEM?

The "Shooting Stars"—A Fine Meteoric Display—That Comet Must be Near.

That new comet, whether it is Biela's or not, must be getting pretty close to the earth.

The sky was full of "shooting stars" last night. They were flying in most every direction, but most of them started from a point almost directly overhead.

It was one of the finest meteoric displays witnessed for years.

It would have been a splendid night for young couples to count "shooting stars," had it not been so cold.

The display commenced just after dark, and continued pretty well through the night. It was a reminder of some of the fire-works at the late jollifications, only on a grander scale. Maybe the recent Democratic victory is being celebrated up there.

As fine as the meteoric display was last night, it was not a marker to what may be expected next Saturday or Sunday night, if the wise men know what they are talking about. Dr. Louis Swift, the well known astronomer, predicts that on the evening of November 27th, as soon as darkness falls, there will be a rain of fire which will be remembered for years. It will be one of those meteoric showers that fifty years ago startled the world. The shower will be due to the comet Biela, which is now exciting so much wonder in the astronomical world. An interesting article from the New York World appears elsewhere on the subject.

Legislative News.

A bill is pending to amend the new Revenue law. It makes a technical change by allowing the Assessor to write some of the things which the party assessed is now required to write.

Mr. Hissem's bill to allow Campbell County to supplement the salary of the Judge of the Circuit Court of that county was defeated.

Mr. Hay, from the Committee on Education, reported the original House bill for the Stewart text book bill passed by Senate. Mr. Hay made a lengthy explanation of why the House bill was preferable. An amendment was adopted, adding the County Judge and County Attorney to the County Board of Education.

The Senate did considerable work of an important nature, and added to the calendar a number of bills prepared by the Revisory Committee. There was one in regard to legal advertising.

A House bill to pay Sheriffs for services for work done in other counties was killed.

A bill is pending to so amend the new election law as to require that all election officers be house-holders and necessitating residence in the precinct in which they act.

The Revisory Commission bill regulating the Auditor's office, its duties, salaries, etc., was passed by the House.

The L. and N. Railroad has established a permanent line of steamers between Pensacola and Havana, first sailing December 15.

Mr. John Denton and Miss Sallie Jones, of Hillsboro, Fleming County, will be married November 30th. Miss Jones formerly lived at Mayslick.

It is reported that the C. and O. will at an early day erect an iron viaduct in the place of the wooden trestle across the Limestone Creek bottoms.

John Cooper, of Murphysville, and Ellen T. Campbell, of Robertson County, were united in marriage yesterday at the County Clerk's office. Squire Miller officiated.

Colonel Richard Dawson entertained about forty of his friends Tuesday night at the Central Hotel, at a quail and oyster supper. It is hardly necessary to add that the occasion was a thoroughly enjoyable one.

Rev. Whitty Waldron will preach at the Methodist Episcopal Church, South, in Washington, next Sunday morning, November 27th, at 11 o'clock, and at night at a quarter before seven. All are invited to attend these services.

The widow of Alexander Campbell, the founder of the Christian Church, and Bethany College, Va., celebrated the 90th anniversary of her birth, at Wheeling, W. Va., November 13. She is in good health and bids fair to reach one hundred.

Mr. John Caldwell and family, who have been living in Saline County, Missouri, for nearly five years, arrived here Saturday, and are visiting at Mr. T. L. Best's, his brother-in-law. He sold his farm in Missouri at an advance of over what it cost of some \$30 per acre. Mr. Caldwell liked the country well enough, but his family had no health there. He will purchase a farm in Bourbon County. William Ward and family, who went out West at the same time, have also returned.

In Great Profusion; Attractive, Desirable and Very CHEAP!

Our stock was never so complete and large as at present, and never did we have so many desirable bargains. In fact there are so many that we are puzzled as to which to mention.
